LR ★ 共通テスト 英語 予想問題（2025年度〜 新課程の形式） ★ 第1回

英語リーディング
予想問題 第1回

テーマ：暮らし・環境・食文化・読み聞かせ・自然・科学史・睡眠・制服
80分・100点・大問8・解答数44 オリジナル問題（本文・設問・解説すべて書き下ろし）

80分	100点	44	約4,340語
試験時間	配点	解答数	英文の量

このプリントの使い方
本番と同じ順で80分で解く。時間配分の目安：第1〜3問 15分／第4問 10分／第5問 13分／第6問 13分／第7問 13分／第8問 14分（見直し2分）。
答えは「解答用紙」の番号に○。終わったら「正解と配点」で採点し、「解説」で根拠の場所を確認する。
本番の傾向（情報の検索・事実と意見の区別・推敲・複数資料の統合・要約・論理展開）をすべての大問で再現しています。
各大問の解説の最初に本文の要旨（日本語）があります。読み終えた後の内容確認に使えます。

第1問	テキストメッセージ（情報の読み取り）
第2問	ウェブサイトとコメント（事実と意見）
第3問	物語（出来事の順序・語句の意味）
第4問	推敲（下書きとコメント）
第5問	チラシ・申込書・メール（複数資料の照合）
第6問	物語文＋発表メモ（時系列・人物の変化）
第7問	論理的な文章＋スライド（要点・応用）
第8問	複数の意見文＋論説文の構成（統合・要約）

第1問 テキストメッセージ（情報の読み取り）　（配点 6）

あなたはカナダでホームステイをしています。ホストシスターの Emma から携帯電話にメッセージが届きました。メッセージを読み、問いに答えなさい。

Emma
Hi Kenta! Mom asked me to pick up a few things on my way home from swimming practice. We're having a barbecue for Grandpa's birthday on Saturday. Is there anything you'd like me to get for you?

Kenta
Thanks! Could you buy some rice crackers? I want to share them with everyone at the party. Also, I'm out of toothpaste.

Emma
Sure. The supermarket near the pool doesn't sell Japanese snacks, though. I'll try the Asian grocery store next to the library. It closes at seven, so I'll have to hurry.

Kenta
If it's too much trouble, don't worry about the crackers. I can go there myself tomorrow after school.

Emma
No problem! Practice ends at six. By the way, Grandpa loves gardening. Do you have any ideas for a present?

Kenta
How about a pair of gardening gloves? I saw some nice ones at the hardware store downtown. I could get them tomorrow when I go to the station to buy my bus pass.

Emma
Perfect! I'll pay you back half. See you at dinner!

1 What does Kenta ask Emma to buy for him? **1**

① A birthday cake for the barbecue
② A pair of gardening gloves
③ Rice crackers and toothpaste
④ A new bus pass

2 Why does Emma say she will have to hurry? **2**

① Her swimming practice finishes late at night.
② The store she plans to visit closes at seven.
③ The supermarket near the pool is far from home.
④ Dinner will start earlier than usual.

3 What will Kenta most likely do tomorrow? **3**

① Buy a present for Emma's grandfather downtown.

② Go to the Asian grocery store after school.

③ Join Emma at her swimming practice.

④ Prepare food for the barbecue with Emma's mother.

第2問 ウェブサイトとコメント（事実と意見）　（配点 12）

あなたはイギリスに留学中で、環境問題についての発表の準備をしています。次のウェブサイトを見つけました。

Cup Loop — Borrow a cup. Return it. Repeat.

Cup Loop is a scheme that lets you borrow a reusable cup at any of our 38 partner cafés in Greenford. Here's how it works:

1. Download the Cup Loop app and register (free for students, £3 a year for everyone else).
2. Order your drink at a partner café and scan the QR code on the cup.
3. Return the cup to any partner café or to one of the 12 return bins in the town centre within 7 days.

If a cup is not returned within 7 days, £5 will be charged to your account. Each cup can be used up to 500 times and is washed in a commercial dishwasher after every use. Since the scheme started in 2023, more than 260,000 single-use cups have been kept out of landfill. Partner cafés also take 20p off any drink served in a Cup Loop cup.

What our users say

Priya (university student): I use Cup Loop almost every day. Not having to wash a cup myself is a huge relief! The only problem is that the return bins near the station are often full by the evening.

Tom (office worker): I was charged £5 when I forgot to return a cup after a weekend trip. Fair enough, I suppose, but a reminder notification would be nice. Otherwise, it's a brilliant idea.

Grace (café owner): Since joining, we've cut our spending on paper cups by about 40%. Some customers still prefer to bring their own flasks, which is absolutely fine by us.

1 According to the website, who can use Cup Loop without paying a yearly fee? **4**

① Café owners
② Students
③ People who registered in 2023
④ People who live in the town centre

2 One **fact** (not an opinion) stated in the users' comments is that **5**

① Cup Loop is a brilliant idea.
② not having to wash a cup is a relief.
③ a café has reduced the money it spends on paper cups.
④ a reminder notification would be nice.

3 Tom had to pay £5 because he **6**

① broke one of the cups.
② kept a cup for more than a week.
③ did not register on the app.
④ used the same cup more than 500 times.

4 Which of the following is a problem mentioned by a user? **7**

① Partner cafés do not allow customers to bring their own flasks.
② Cups are not washed often enough.
③ The 20p discount is too small to attract new users.
④ Some return points cannot accept more cups later in the day.

第3問 物語（出来事の順序・語句の意味）　（配点 9）

あなたは英語の授業で、留学生向けのブログを読んでいます。

Grandma's Jam

Posted by Mika, 15 November

Last spring, while helping my parents clear out the storeroom, I found a cardboard box with "Mitsuko" written on the side. That was my grandmother's name. She passed away three years ago. Inside the box was a notebook full of recipes she had scribbled down over fifty years. On one page, stained with something purple, was her plum jam — the jam I used to eat on toast every morning at her house.

Our school festival was coming up in October, and my class had decided to run a small café. I suggested selling toast with Grandma's jam. Everyone agreed, so I had to learn how to make it — fast.

The recipe looked simple: plums, sugar, and "cook until it feels right." That was all. My first attempt was a disaster. I wanted to finish quickly, so I turned the heat up high. Ten minutes later, the kitchen smelled of burnt sugar, and the bottom of the pan was black. My mother laughed and said, "Your grandma never rushed anything."

The next day, I took the notebook to Mrs. Hara, our neighbour, who used to make jam with Grandma every June. She smiled when she saw the purple stain. "Your grandmother never measured anything," she said. "She cooked with her nose." She showed me how to let the plums simmer slowly, stirring now and then, and to wait until the smell changed from sharp to sweet. At the very end, she added a little lemon peel. "That was Mitsuko's secret," she whispered.

On the day of the festival, we sold out before noon. A woman who had known my grandmother tasted it and said quietly, "This takes me back." That evening, I wrote everything Mrs. Hara had taught me in the margin of the notebook, next to Grandma's handwriting. Now the recipe says a little more than "until it feels right."

1 Mika's first batch of jam failed mainly because she **8**

① used the wrong kind of plums.

② cooked it too quickly over high heat.

③ forgot to add any sugar.

④ could not read her grandmother's handwriting.

2 Put the following events into the order in which they happened.

9 → **10** → **11** → **12**

① Mika asked her neighbour for help.

② The class's jam sold out at the festival.

③ Mika found an old notebook in a box.

④ Mika's first attempt to make jam went badly.

⑤ Mika gave the notebook to her grandmother.

3 When Mrs. Hara says, "She cooked with her nose," she means that Mika's grandmother **13**

① judged when the food was ready by its smell and her experience.

② often caught colds while she was cooking.

③ did not like the smell of plums.

④ always followed recipes exactly.

第4問 推敲（下書きとコメント）　（配点 12）

あなたは英語の授業でエッセイを書いています。次は Daichi の下書きと、それに対する先生のコメントです。

Why Reading Aloud Matters

Last summer, I volunteered at our city library, where I read picture books to children aged four to six every Saturday. At first, I thought it would be easy, but I soon realised that reading aloud is a skill — and that it gives young children much more than entertainment.

First, children who are read to regularly learn more words. Picture books often contain words that we rarely use in everyday conversation, such as "gigantic" or "whisper." When children hear these words in a story, they can guess their meanings from the pictures and the situation. **[A]** they tend to enjoy reading on their own later.

Second, reading aloud can help children concentrate for longer. **(a)** On my first day, many of the children could not sit still for more than a few minutes. **(b)** However, as the weeks passed, I noticed a change. **(c)** By the end of the summer, most of the group could listen to a fifteen-minute story without fidgeting. **(d)**

Third, stories help children understand feelings. Many libraries also have cafés where parents can relax. When I used a scared voice for a lost rabbit, some children held each other's hands, and when the rabbit found its mother, they cheered.

[D] In conclusion, I volunteered at the library last summer, and I read picture books to children. It was a good experience.

先生のコメント

A：前の文とのつながりがわかりにくいです。適切な語句を入れましょう。

B：第3段落の主張を支える具体例を1文加えましょう。

C：下線部の文は、この段落の主張とずれています。差し替えましょう。

D：結論が導入のくり返しになっています。三つの論点をまとめて書き直しましょう。

1 Based on Comment A, which is the best expression to put in **[A]**? **14**

① In contrast,　② On top of that,
③ For example,　④ Nevertheless,

2 Based on Comment B, where is the best place to add the following sentence?
"For instance, one boy who used to wander around the room began asking me to read the same dinosaur book again and again." **15**

① (a)　② (b)　③ (c)　④ (d)

3 Based on Comment C, which is the best sentence to replace the underlined one? **16**

① Public libraries in Japan have a history of more than one hundred years.
② Hearing a story read with feeling helps children recognise emotions such as fear and joy.
③ Some children prefer watching videos to listening to stories.
④ I usually took the bus to the library on Saturdays.

4 Based on Comment D, which is the best way to rewrite the conclusion? **17**

① In conclusion, libraries should open more cafés so that parents can relax while their children read.
② In conclusion, reading aloud is difficult, so only trained adults should do it.
③ In conclusion, children today prefer videos, so picture books are no longer necessary.
④ In conclusion, reading aloud helps young children build vocabulary, concentrate for longer, and understand feelings.

第5問 チラシ・申込書・メール（複数資料の照合）　（配点 16）

あなたはイギリスでホームステイ中の高校生 Haruto
です。夏休みのボランティアについて、次のチラシと申込書、そして返信メールを読んでいます。

Become a Youth Ranger this Summer!

Riverside Nature Centre — 5th to 7th August, 9:30 a.m. – 3:30 p.m.

Do you love the outdoors? Join our three-day programme and help us look after the wildlife of the River Avel. Open to young people aged 14 to 18. You must be able to attend **all three days**. Places are limited to 12 per course, and they are given on a first-come, first-served basis.

Course	What you will do	Notes
A: River Detectives	Test water quality and count insects living in the river	Wellies provided
B: Bird Watch	Record birds at the wetland hide; learn to use a field guide	Binoculars provided
C: Woodland Care	Clear paths, build bird boxes and plant young trees	Gloves provided; long trousers required

Cost: £15 for the three days (free for Nature Centre members). **What to bring:** a packed lunch, a water bottle and a waterproof jacket. Everyone who completes the programme will receive a Youth Ranger certificate. Apply by 20th July using the form below.

Application Form

Name	Haruto Sato	Age	16
Member?	Yes　No	Phone	07700 900 461
First choice	B: Bird Watch	Second choice	A: River Detectives
Allergies / medical needs	Allergic to bee stings		

From: Joanna Price <youthrangers@riversidenature.org.uk>
To: Haruto Sato
Date: 18th July
Subject: Your Youth Ranger application

Dear Haruto,

Thank you for applying to be a Youth Ranger. I'm sorry to say that Bird Watch was oversubscribed within two days, so we have placed you on your second choice. We have noted your allergy, and one of our staff members carries a first-aid kit at all times.

Please note one change to the programme. On the second day (6th August), the meeting point will be the car park at Mill Bridge instead of the Nature Centre, as we will spend the morning further down the river. A minibus will bring everyone back to the Centre at lunchtime.

Please pay the fee in cash on the first morning. We look forward to seeing you!

Best wishes,
Joanna Price, Youth Programme Coordinator

1 Which course will Haruto take part in? **18**

① River Detectives
② Bird Watch
③ Woodland Care
④ He has not been given a place on any course.

2 Which of the following does Haruto **NOT** need to bring? **19**

① A packed lunch　② A waterproof jacket
③ A water bottle　④ A pair of wellies

3 On 6th August, Haruto should **20**

① take a minibus from the Nature Centre in the morning.
② stay at home because the programme is cancelled.
③ go to the car park at Mill Bridge in the morning.
④ meet the other rangers at the wetland hide.

4 Which of the following statements are true? Choose the best combination.

A. Haruto has to pay £15.
B. Places on each course are decided by lottery.
C. Haruto must take part on all three days to join.
D. The staff have not been told about Haruto's allergy. **21**

① A and B　② A and C　③ B and D　④ C and D

5 Which **two** of the following can be learned from the materials? (The order does not matter.) **22** **23**

① Haruto will receive a certificate even if he misses one day.
② Some courses were more popular than others.
③ Course C participants can wear shorts.
④ The programme takes place every weekend in August.
⑤ Haruto will spend part of the second day away from the Nature Centre.

第6問 物語文＋発表メモ（時系列・人物の変化）　（配点 12）

あなたは英語の授業で、科学者の伝記を読み、発表用のメモを作ることになりました。次の文章を読み、メモを完成させなさい。

Ruth Okada: The Woman Who Read the Sky

Ruth Okada was born in 1921 in a small town in Vermont, USA. Her mother had grown up in Hokkaido, and every winter she told Ruth stories about the deep snow of her childhood. When Ruth was ten, her father gave her an old camera, and she spent hours on the back porch trying to photograph snowflakes before they melted on her black wool glove. Most of her photographs were blurry, but a few showed perfect six-sided stars. She kept them in a biscuit tin under her bed.

At university, Ruth studied physics — one of only three women in her year. Her professors were polite but did not expect much from her. One of them told her that "snow is for poets, not physicists." Ruth did not argue. Instead, she began collecting data. Every snowy night, she recorded the temperature and humidity outside the laboratory and photographed the crystals that fell. After two winters, she noticed something strange: on very cold, dry nights, the crystals were often shaped like small columns rather than stars.

In 1948, Ruth joined a government weather laboratory in Colorado. Her new supervisor, Dr. Harold Finch, had heard about her photographs and asked her to help build an apparatus that could make snow inside the laboratory. The task was harder than either of them had imagined. For eighteen months, the machine produced nothing but frost and ice. Twice the cooling system broke down completely, and once a fire in the next room forced the team to start again from the beginning. Funding was nearly cut. Finch later wrote that it was Ruth's patience, more than any single idea, that kept the project alive.

The breakthrough came in the winter of 1950. Ruth suggested hanging a single rabbit hair inside the chamber so that one crystal could grow on it slowly. By carefully changing the temperature and humidity, the team could now **reproduce** any shape they had seen in nature — needles, plates, columns and stars. Ruth combined these results with her notes from university to create a simple diagram showing which shape forms under which conditions. Meteorologists still use versions of this "snow chart" today: by looking at a snow crystal, they can tell what the sky was like high above the ground. Ruth liked to call snowflakes "letters sent from the sky."

Ruth never became famous. She published her results under Finch's name as well as her own, and for many years, textbooks mentioned only him. She did not seem to mind. After she retired in 1981, she held free snow-watching classes for children every winter, handing out magnifying glasses and black cards to catch the flakes. "You don't need a laboratory to do science," she told them. "You need to look closely and write down what you see." In 2019, a group of former students placed a small sign near her old house. It reads: "Ruth Okada, 1921–2009. She taught us to read the sky."

発表メモ

Ruth Okada (1921–2009)

■ Early life: grew up hearing about snow in Hokkaido; took photos of snowflakes

■ Career: events in order → 問1 (four boxes)

■ What made the snow-making project succeed → 問2

■ Her contributions → 問3 (two answers)

■ What her life teaches us → 問4

1 Put the following events into the order in which they happened.

24 → **25** → **26** → **27**

① Ruth started working with Dr. Finch.

② Ruth began teaching children about snow.

③ A professor said snow was not a subject for physicists.

④ A fire forced the research team to start over.

2 According to the passage, what was the main reason the project continued? **28**

① The government gave the laboratory more money.

② Dr. Finch found a way to repair the cooling system.

③ Ruth used a new type of camera.

④ Ruth's patience kept the team going through many failures.

3 Choose **two** contributions Ruth made. (The order does not matter.) **29** **30**

① She invented the first camera able to photograph snow.

② She found a way to grow a single crystal slowly in a laboratory.

③ She proved that all snow crystals are shaped like stars.

④ She persuaded textbooks to mention her name instead of Finch's.

⑤ She linked crystal shapes to the conditions in which they form.

4 Which of the following best describes the message of Ruth's life? **31**

① Careful observation and recording can lead to discoveries, even without fame or special equipment.

② Scientists should always make sure that they receive credit for their work.

③ Only people with expensive laboratories can make important discoveries.

④ It is better to study art than science if you love nature.

第7問 論理的な文章＋スライド（要点・応用）　（配点 16）

あなたは健康についての発表のために、次の記事を読んでスライドを作っています。

Sleep: The Study Tool Nobody Talks About

Many students believe that the best way to prepare for an exam is to study for as long as possible, even if that means cutting back on sleep. Research in brain science, however, suggests the opposite. Sleep is not simply a time when the brain switches off. It is an active period during which the brain sorts, strengthens and stores what we learned during the day.

When we learn something new, the memory is at first fragile, like writing in pencil. During deep sleep, the brain appears to "replay" the day's experiences, sending information from a temporary storage area called the hippocampus to the cortex, where long-term memories are kept. In this way, sleep helps to **consolidate** memories — to turn pencil into ink.

One well-known type of experiment shows this clearly. Two groups of volunteers learn a list of word pairs in the evening. One group then sleeps for eight hours, while the other stays awake all night. Two days later, after both groups have had a normal night's sleep, they are tested. The group that slept straight after learning typically remembers 20 to 40 percent more than the group that stayed up. In other words, the lost night cannot simply be "caught up on" later.

This does not mean that more sleep is always better, or that a long nap can replace a good night's rest. Studies suggest that a short afternoon nap of around 20 minutes can improve alertness and help us learn in the afternoon. However, naps longer than about 30 minutes may leave people feeling groggy, and late-afternoon naps can make it harder to fall asleep at night.

What we do before bed also matters. Light from phone and computer screens can delay the release of melatonin, a hormone that tells the body it is time to sleep. Checking social media in bed can also make the mind more active, just when it should be calming down. Experts recommend putting screens away at least an hour before going to bed.

Finally, regular timing may be as important as the total number of hours. Our bodies follow a roughly 24-hour cycle known as the circadian rhythm. Going to bed and waking up at very different times on weekdays and weekends — sometimes called "social jet lag" — can disturb this rhythm, leaving us tired on Monday mornings. Keeping roughly the same schedule every day helps the body know when to feel sleepy and when to feel alert.

For students, the message is clear. Staying up all night before a test may feel productive, but it can undo much of the effort made during the day. Sleep should be seen not as time taken away from studying, but as part of studying itself.

Sleep and Learning

- Sleep = an active process: sort → strengthen → store
- Key experiment: sleep after learning → 20–40% better recall
- Naps: see Question 3
- Tips for better sleep (Question 4):
  - Before bed: (A)
  - Schedule: (B)

1 In the second paragraph, the writer compares new memories to "writing in pencil" in order to show that they **32**

① are always stored in the cortex from the beginning.

② cannot be changed once they are formed.

③ can easily be lost unless they are strengthened.

④ are clearer than long-term memories.

2 What does the experiment described in the third paragraph show? **33**

① People who sleep for eight hours learn word pairs faster.
② Sleep lost right after learning cannot easily be made up for later.
③ Both groups remembered the same number of words.
④ Staying awake all night improves memory for a short time.

3 Which **two** statements about naps agree with the article? (The order does not matter.) **34** **35**

① A nap of about 20 minutes may help people stay alert.
② Long naps are a good way to replace sleep at night.
③ Napping in the late afternoon helps people fall asleep earlier.
④ Naps of more than half an hour may make people feel less clear-headed.
⑤ Students should never take naps on school days.

4 Which pair best completes (A) and (B) on the slide? **36**

① (A) check messages quickly (B) sleep in on weekends
② (A) drink coffee (B) change bedtime often
③ (A) study with a bright screen (B) sleep only on weekends
④ (A) no screens for an hour (B) similar times every day

5 Your classmate Aya says: "I study until 3 a.m. the night before tests and sleep until noon on Sundays. I nap for two hours after school." Based on the article, which advice is the most suitable for Aya? **37**

① Study earlier, sleep after learning, keep similar sleep times all week, and limit naps to about 20 minutes.
② Keep the same schedule, because long naps make up for the lost sleep.
③ Stay up even later on Saturday so that Sunday feels shorter.
④ Stop taking naps but continue studying until 3 a.m.

第8問 複数の意見文＋論説文の構成（統合・要約）　（配点 17）

あなたは「高校の制服は廃止すべきか」についてエッセイを書くために、次の資料を集めました。

Opinion 1 — Lena (17, student)

School uniforms tell us that everyone should look the same. But we are not all the same, and the clothes we choose are one way of showing who we are. At my cousin's school in Sweden, there is no uniform, and students there seem confident and relaxed. I think uniforms limit self-expression at a time when young people are trying to discover their identity. If schools are worried about inappropriate clothing, they can simply have a basic dress code.

Opinion 2 — Marcus (16, student)

I used to go to a school without uniforms, and honestly, it was stressful. Every morning I worried about what to wear, and some students were teased because their clothes were cheap or out of fashion. There was a lot of peer pressure to buy brand-name items. Since moving to a school with uniforms, I spend that energy on other things. Uniforms make differences in family income less visible.

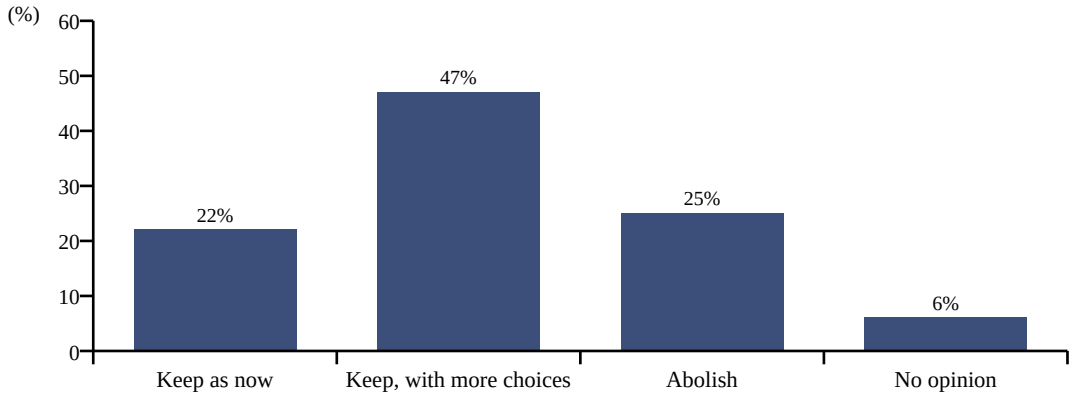

Opinion 3 — Ms. Diaz (parent of two)

People often say uniforms are expensive, and it is true that a full set costs around 40,000 yen. But a uniform lasts for three years. When my eldest went to a school with no uniform, we ended up spending far more, because she needed different clothes for every day of the week and wanted new ones each season. For our family, the uniform was the cheaper choice. That said, I would welcome more practical options, such as trousers for girls and washable jackets.

Opinion 4 — Mr. Okoro (teacher)

From a teacher's point of view, uniforms have one clear advantage: safety. On school trips to crowded places, I can find my students immediately, and it is easy to notice if a stranger enters the school building. However, I do not believe uniforms improve students' behaviour or grades by themselves. Research on that question is mixed. What matters most is the relationship between students and teachers.

Survey: Should our school keep uniforms? (Students, n = 400)

エッセイの構成メモ

Title: Uniforms: Keep Them, but Change Them

Step 1 — Introduction: Introduce the debate. Position: {問1}

Step 2 — Body: Reasons for keeping uniforms → {問2 (two answers)}
Point to consider (other side) → {問3}
Evidence from the survey → {問4 (two answers)}

Step 3 — Conclusion: {問5}

1 Which position best matches the title of the essay? **38**

① Uniforms should be abolished because they are too expensive.

② Uniforms have no advantages, so each school should decide.

③ Uniforms should stay, but students should have more options.

④ Uniforms improve students' grades, so they should be stricter.

2 Choose **two** reasons for keeping uniforms that are supported by the opinions. (The order does not matter.) **39** **40**

① They can reduce stress and pressure about clothes.

② They make students more confident and relaxed.

③ Research clearly shows that they improve behaviour.

④ They help teachers keep students safe.

⑤ They are cheaper than any other clothes for every family.

3 Which is the best "point to consider" from the other side? **41**

① Uniforms make it easier to notice strangers at school.

② Uniforms may limit students' ability to express their identity.

③ Uniforms last for three years.

④ Teachers find students quickly on school trips.

4 Which **two** statements are supported by the survey? Mark one answer in each box.

42 About half of the students want to keep uniforms but with more options.

43 The proportion of students who want to keep uniforms in some form is

① True	② False	③ about 25%.
④ about 47%.	⑤ about 54%.	⑥ about 69%.

5 Which is the most appropriate conclusion for the essay? **44**

① Since uniforms cause stress, schools should abolish them at once.

② Because research is mixed, we should stop discussing uniforms.

③ Uniforms are expensive, so families should buy second-hand clothes instead.

④ Uniforms bring benefits such as safety and less pressure, but schools should offer practical choices like trousers for all students.

	問2	39-40	①・④（順不同）	3	順不同・完答
	問3	41	②	3	
	問4	42-43	①・⑥	4	各2点
	問5	44	④	4	
合計		**44**		**100**	

得点の目安
80点以上：難関国公立の合格圏／65点：中堅国公立・共テ利用の標準／50点：平均点前後。第5問以降で崩れる人は「設問を先に読み、探す情報を決めてから本文へ」を徹底する。

解説

第1問 テキストメッセージ（情報の読み取り）

本文の要旨
カナダでホームステイ中のケンタと、ホストシスターのエマのやりとり。エマは水泳の帰りに買い物をする。ケンタはおせんべいと歯みがき粉を頼むが、おせんべいはアジア食材店（7時閉店）にしかない。祖父の誕生日プレゼントには、ケンタが翌日に園芸用手袋を買いに行くことになる。

問 1 解答番号 1 正解 ③ （2点）
ケンタの最初の返信 "Could you buy some rice crackers? … Also, I'm out of toothpaste." が根拠。
② の手袋はケンタが自分で明日買うもの。④ のバスの定期券もケンタが駅で買う。① のケーキは話に出てこない。

問 2 解答番号 2 正解 ② （2点）
"It closes at seven, so I'll have to hurry." の It はアジア食材店。練習は6時に終わるので、急げば間に合う。
① 練習は6時終了で「夜遅く」ではない。③④ は本文にない。

問 3 解答番号 3 正解 ① （2点）
ケンタ "I could get them tomorrow when I go to the station" ＋ エマ "Perfect!"
で、明日ダウンタウンで手袋（祖父へのプレゼント）を買うことが決まる。
② はエマが今日行くと言ったので不要になった（"No problem!"）。ひっかけの定番：途中で取り消された予定を選ばせる。

語句 pick up ～（店で）買ってくる ／ be out of ～ ～を切らしている ／ hardware store 金物店・ホームセンター ／ pay ～ back ～にお金を返す

第2問 ウェブサイトとコメント（事実と意見）

本文の要旨
イギリスの町 Greenford の「Cup Loop」：アプリに登録して、提携カフェでくり返し使えるカップを借りる仕組み。学生は無料、それ以外は年3ポンド。7日以内に提携カフェか返却箱に返す（遅れると5ポンド）。利用者・カフェ経営者の感想つき。

問 1 解答番号 4 正解 ② （3点）
"free for students, £3 a year for everyone else" が根拠。
③ の 2023 は制度が始まった年で、料金とは関係ない。

問 2 解答番号 5 正解 ③ （3点）
Grace の "we've cut our spending on paper cups by about 40%" は数字で確かめられる事実。
① brilliant、② a huge relief、④ would be nice
はいずれも話し手の評価・感想（意見）。「確かめられるか」で判断する。

問 3 解答番号 6 正解 ② （3点）
Tom は週末旅行の後に返し忘れた → "If a cup is not returned within 7 days, £5 will be charged"
に当たる。within 7 days ＝ a week。

問 4 解答番号 7 正解 ④ （3点）
Priya "the return bins near the station are often full by the evening" を言いかえたのが ④。full by the evening → cannot accept more cups later in the day。
① は逆（Grace は自分の水筒も歓迎）。② 毎回洗浄と書かれている。③ 割引額への不満は誰も言っていない。

語句 scheme（英）計画・制度 ／ landfill ごみの埋め立て地 ／ flask（英）水筒 ／ fair enough まあ仕方ない

第3問 物語（出来事の順序・語句の意味）

本文の要旨
高校生のミカは、亡くなった祖母の手書きのレシピ帳を見つけ、文化祭で祖母の梅ジャムを売ろうとする。レシピには「ちょうどよくなるまで煮る」としか書いておらず、強火で急いで煮た1回目は焦げて失敗。祖母と料理をしていた隣の原さんに教わり、弱火でじっくり煮て、最後にレモンの皮を加えるコツを知る。ジャムは昼前に売り切れ、ミカはレシピ帳の余白に自分の言葉でコツを書き足す。

問 1 解答番号 8 正解 ②　(3点)
”I wanted to finish quickly, so I turned the heat up high.” → 焦げた。母の ”Your grandma never rushed anything.” もヒント。

問 2 解答番号 9・10・11・12 正解 ③→④→①→②　(3点・完答)
箱からノートを発見（第1段落）→ 1回目の失敗（第3段落）→ 原さんに相談（第4段落）→ 文化祭で完売（第5段落）。⑤ は起こっていない（祖母は3年前に亡くなっている）。5つから4つを選ぶ型では「本文にない出来事」が1つ混ざる。

問 3 解答番号 13 正解 ①　(3点)
直前の ”never measured anything”（量を測らない）と、直後の「香りが鋭い→甘いに変わるまで待つ」から、香りと経験で判断したという意味。④ は ”never measured anything” と逆。文脈から語句の意味を決める問題は、前後1文ずつが根拠になる。

語句 scribble 走り書きする ／ simmer とろ火で煮る ／ scorch 焦がす ／ stir かき混ぜる ／ margin 余白

第4問 推敲（下書きとコメント）

本文の要旨
高校生の Daichi が、図書館で幼児に絵本を読み聞かせたボランティア体験をもとに書いたエッセイの下書き。主張は「読み聞かせは語彙・集中力・感情の理解を育てる」。先生のコメント（A〜D）に従って、つなぎの言葉・具体例の挿入位置・論点に合わない文の差し替え・結論の書き直しを考える。

問 1 解答番号 14 正解 ②　(3点)
前の文（語彙が増える）に、後の文（自分から読書を楽しむようになる）という別の良い点を追加している → On top of that（それに加えて）。
① 対比、④ 逆接は流れに合わない。③ For example は前の内容の具体例を導くが、後の文は語彙の具体例ではない。

問 2 解答番号 15 正解 ③　(3点)
挿入文は「集中できなかった子が変わった」具体例。”However, as the weeks passed, I noticed a change.” の直後（c）に入れると、変化の具体例 → 夏の終わりの全体の様子、と自然につながる。
(a)(b) は変化の前の段階なので「変わった」例は早すぎる。(d) は段落の結びの後で、For instance が浮く。

問 3 解答番号 16 正解 ②　(3点)
段落の主題文は ”stories help children understand feelings”。続く具体例（怖がる声で手をつなぐ・再会で歓声）につながるのは、感情の理解を説明する ②。
①③④
はいずれも「感情」という論点から外れる。差し替え問題は「主題文」と「直後の具体例」の両方に合う文を選ぶ。

問 4 解答番号 17 正解 ④　(3点)
三つの論点（語彙・集中力・感情の理解）をすべて含むのは ④ だけ。
① は削除すべき文（カフェ）を根拠にしている。②③
は本文の主張と逆。結論の書き直しは「本文の論点を過不足なく」が基準。

語句 picture book 絵本 ／ attention span 集中できる時間 ／ fidget そわそわする ／ empathy 共感

第5問 チラシ・申込書・メール（複数資料の照合）

本文の要旨
イギリスの Riverside 自然センターの夏の「ユース・レンジャー」募集のチラシ、申込書、担当者からのメール。
参加条件（14〜18歳・3日間すべて参加）、コース（A 川の調査／B 野鳥観察／C
森の手入れ）、持ち物、費用（£15、会員は無料）。
メールでは、Bコースの定員が埋まったこと、2日目の集合場所が変わることが知らされる。

問 1 解答番号 18 正解 ①　(3点)
メール "Bird Watch was oversubscribed … we have placed you on your second choice." → 申込書の第2希望は A: River Detectives。
資料をまたいで照合する典型問題。メールだけ・申込書だけでは答えが決まらない。

問 2 解答番号 19 正解 ④　(3点)
チラシの表で Course A には "Wellies provided"（長靴は貸してくれる）。①②③ は全員の持ち物。

問 3 解答番号 20 正解 ③　(3点)
メール第2段落：2日目は集合場所が Mill Bridge
の駐車場に変更。ミニバスは昼にセンターへ戻るためのもの（①は時間と方向が逆）。

問 4 解答番号 21 正解 ②　(3点)
A：申込書で会員は No → £15 を払う（正）。C：チラシ "You must be able to attend all three days"（正）。
B：first-come, first-served（先着順）で抽選ではない（誤）。D：メール "We have noted your allergy"（誤）。

問 5 解答番号 22・23 正解 ②・⑤（順不同）　(4点・順不同・完答)
② Bird Watch は2日で定員超え → 人気に差がある。⑤ 2日目の午前は Mill Bridge で活動。
① 修了者（全日参加）だけが証明書。③ Course C は長ズボン必須。④ 8月5〜7日の3日間だけ。

語句 wellies（英）長靴 = wellington boots ／ packed lunch（英）弁当 ／ waterproof 防水の ／ oversubscribed 定員を超えた ／ car park（英）駐車場

第6問 物語文＋発表メモ（時系列・人物の変化）

本文の要旨
架空の科学者「Ruth Okada」の伝記。北海道出身の母とアメリカ人の父のもとで育ち、雪の結晶の写真にひかれて研究者になる。戦後の研究所で人工雪の装置を改良し、失敗を重ねたのち「温度と湿度で結晶の形が決まる」図表を完成させる。晩年は子ども向けの雪の観察会を開いた。
※設問の題材としての架空の伝記です（実在の人物ではありません）。

問 1 解答番号 24・25・26・27 正解 ③→①→④→②　(3点・完答)
大学時代の教授の発言（第2段落）→ 1948年 Finch のもとへ（第3段落）→ 研究中の火事（第3段落）→ 1981年の退職後に子ども向け観察会（第5段落）。

問 2 解答番号 28 正解 ④　(3点)
"it was Ruth's patience, more than any single idea, that kept the project alive" が根拠。
① 逆に "Funding was nearly cut"。②③ は本文にない。

問 3 解答番号 29・30 正解 ②・⑤（順不同）　(3点・順不同・完答)
② ウサギの毛1本に結晶をゆっくり育てる案。⑤ 温度・湿度と形の関係を図表（snow chart）にまとめた。
③ 逆：柱状・針状など形はいろいろ。④ 教科書は長く Finch だけを載せ、Ruth は気にしなかった。

問 4 解答番号 31 正解 ①　(3点)
晩年の言葉 "You don't need a laboratory … look closely and write down what you see."
と、名声を求めなかった生き方が ① に合う。
② は Ruth の態度と逆、③ は本人の言葉と逆。

語句 crystal 結晶 ／ humidity 湿度 ／ apparatus 装置 ／ reproduce 再現する ／ mentor 指導者

第7問 論理的な文章＋スライド（要点・応用）

本文の要旨
「睡眠は記憶を固める」をテーマにした説明文。睡眠中に脳は日中の経験を再生して記憶を定着させる。徹夜の詰め込みは逆効果で、学習後に眠ったグループは起きていたグループより成績がよかったという実験も紹介。短い昼寝（20分程度）の効果、寝る前のスマートフォンの悪影響、同じ時刻に寝起きする習慣の大切さを述べる。

問 1 解答番号 32 正解 ③ （3点）
fragile（壊れやすい）→ 鉛筆は消える。睡眠でインクにする＝定着させる。② は逆（鉛筆は書き直せる）。① 最初は海馬に一時保管。

問 2 解答番号 33 正解 ② （3点）
両グループとも後で普通に寝たのに差が残った → "the lost night cannot simply be 'caught up on' later."
① 覚える速さは比べていない。③ 20〜40%の差がある。

問 3 解答番号 34・35 正解 ①・④（順不同） （4点・順不同・完答）
① "a short afternoon nap of around 20 minutes can improve alertness"。④ "longer than about 30 minutes may leave people feeling groggy"（groggy＝頭がぼんやり）。
② "a long nap can replace a good night's rest" を否定している。③ 逆。⑤ 本文にない。

問 4 解答番号 36 正解 ④ （3点）
第5段落「寝る1時間前には画面をしまう」、第6段落「毎日ほぼ同じ時刻に」。週末の寝だめ（sleep in）は social jet lag の原因になる。

問 5 解答番号 37 正解 ① （3点）
アヤの問題は三つ：①テスト前夜の夜更かし（第3・7段落）②週末の寝坊＝social jet lag（第6段落）③2時間の昼寝（第4段落）。三つすべてに対応するのは ①。
本文の内容を自分（他人）の生活に当てはめる、新課程の第7問で増えた応用型。

語句 consolidate 強固にする ／ replay 再生する ／ all-nighter 徹夜 ／ groggy ぼんやりした ／ circadian rhythm 体内時計

第8問 複数の意見文＋論説文の構成（統合・要約）

本文の要旨
テーマ「高校は制服をやめるべきか」。生徒（Lena・Marcus）、保護者（Ms. Diaz）、教員（Mr. Okoro）の意見と、調査グラフ。
Lena：制服は個性を抑える／Marcus：服選びの悩み・経済的な差が見えにくくなる／Ms. Diaz：制服は高いが私服はさらにかかる／Mr. Okoro：校外学習で生徒を見分けやすい・安全面。
生徒のエッセイの構成メモ（3ステップ）を完成させる。

問 1 解答番号 38 正解 ③ （3点）
題名 "Keep Them, but Change Them"（残すが変える）→ ③。④ 成績向上は Mr. Okoro が否定している。

問 2 解答番号 39・40 正解 ①・④（順不同） （3点・順不同・完答）
① Marcus（毎朝の悩み・同調圧力）。④ Mr. Okoro（校外で見つけやすい・不審者に気づける）。
② は Lena が私服の学校について言ったこと。③ "Research … is mixed" と否定。⑤ "For our family"（自分の家庭では）と限定されており、全家庭とは言っていない。

問 3 解答番号 41 正解 ② （3点）
反対側の論点は Lena の「自己表現を制限する」。①③④ はすべて制服を残す側の理由。

問 4 解答番号 42・43 正解 ①・⑥ （4点・各2点）
{1}：「選択肢を増やして残す」47% ≒ 約半分 → True（①）。
{2}：何らかの形で残す＝ Keep as now 22% ＋ Keep, with more choices 47% ＝ 69%（⑥）。
④ 47% は一つのグラフ項目だけを見た誤り。複数項目を足す計算は第8問の頻出パターン。

問 5 解答番号 44 正解 ④ （4点）

題名・Step 2 の理由（安全・圧力の軽減）・Ms. Diaz
の提案（女子のズボンなど）・調査（「選択肢を増やして残す」が最多）をすべて反映するのは ④。
①② は立場と逆。③ 論点がずれる。結論は「立場＋主な理由＋反対意見への配慮」で選ぶ。

語句 self-expression 自己表現 ／ peer pressure 仲間からの同調圧力 ／ mandatory 義務の ／ compromise 妥協 ／ dress code 服装規定
